

Criterion B: Record of Tasks

Record of Tasks:

Task Number	Planned Action	Planned Outcome	Time Estimated	Target Completion Date	Criterion
1.	Interview Client	Understand F's problem and how to address it	15 minutes	April 2024	A
2.	Define the problem	Put F's problem on paper	30 minutes	April 2024	A
3.	Figure out a solution to the problem	Create a solution for F's problem and figure out the coding language. Complete the rationale for the solution.	30 minutes	April 2024	A
4.	Interview Client	Explain my solution to F	15 minutes	April 2024	A
5.	Do the success criteria	Figure out the tests I'll use and how they should work.	30 minutes	April 2024	A
6.	Do the test plan	Figure out what happens while using the app. Find some edge cases or possible issues with the app.	1 hour	May 2024	B
7.	Create flowcharts of the app	Create an understanding of how the tests and UI are going to work	4 hours	May 2024	B
8.	Create UI of the app	Have a functioning UI that's easy to navigate	2 hours	May 2024	C

9.	Create the reaction time test	Make a functioning reaction time test	2 hours	May 2024	C
10.	Create the sequence memory test	Make a functioning sequence memory test	4 hours	June 2024	C
11.	Create the aim trainer test	Make a functioning aim trainer test	2 hours	June 2024	C
12.	Create the number memory test	Make a functioning number memory test	4 hours	July 2024	C
13.	Create the verbal memory test	Make a functioning verbal memory test	2 hours	July 2024	C
14.	Interview Client	Get feedback to finalize the app	30 minutes	August 2024	E
15.	Finalize the app using F's feedback	Finish the app	1-2 hours	August 2024	C
16.	Create script for Crit D	Have a script that outlines what to talk about for each success criteria	45 minutes	August 2024	D
17.	Record Video	Finish Crit D	30 minutes	September 2024	D
18.	Evaluate the app against the success criteria	Understand how my app compares to the success criteria	1 hour	September 2024	E
19.	Find improvements for the app	Figure out how my app could be improved	45 minutes	September 2024	E
